March 1, 2011

Members of the Local Government Committee

Park County supports Senator Barrett's Predator Management Bill (Senate Bill 108) that would require FWP to manage large predators with respect to the safety of citizens.

We have wolves all over southern Park County and all the knowledge of their presence seems to be locked in FWP confidential files.

We urge your support of this bill that will require management of predators by protecting citizens, private property and our wildlife.

Sincerely

Marty Malone  
Park County Commissioner
